

CREPM™ CERTIFIED RENEWABLE ENERGY PROJECT MANAGER™ CERTIFICATION FACT SHEET

ABOUT CREPM™ CERTIFIED RENEWABLE ENERGY PROJECT MANAGER™ CERTIFICATION PROGRAM

The CREPM™ Certified Renewable Energy Project Manager™ certification program is a global based credential that recognizes Renewable Energy Project Managers who require a general understanding about the application, value and benefits derived from the use of Project Management, Project Controls, Risk Management, Scheduling, Planning, Earned Value Management and Quality Management on renewable energy projects and programs across all industries, governments, and private sector. The CREPM™ Certified Renewable Energy Project Manager™ credential is a senior management level and professional development program designed for Renewable Energy Project Managers who work across Governments, private sectors and Industries, and who are eager to achieve total Renewable Energy project and program management, execution, control, and delivery success.

The CREPM™ Certified Renewable Energy Project Manager™ certification program is aimed at the present and next generation of government and private sector project controls leaders and managers working for dynamic global companies and firms; international organizations and institutions; and government agencies/departments/ministries who need to broaden their horizons in the field and dimensions of project controls, Earned Value Management Systems (EVMS), planning and scheduling, risk management, project management and effective program governance; and enhance their prospects of achieving successful project and program delivery.

The CREPM™ Certified Renewable Energy Project Manager™ certification program offers the participant with **5 days of intensive level training, studies and exam taking** in Renewable Energy project management, project controls; estimating, planning, scheduling, budgeting; risk management, quality control, Earned Value Management Systems (EVMS), fraud prevention, managing dispute and claims, and contract management for Renewable Energy projects and programs.
