ExecPM™ Executive Project Manager™ FACT SHEET

ExecPM™ Executive Project Manager™ - **Modules:**

When faced with a very large dollar sized project or program that is in a dire situation and everything is no longer working in your favor, As a Project Executive and Manager, how do you turn the situation around to put you back out leading the pack, the team and the project organization? And when the old rules no longer apply but the new rules are still emerging, how do you learn how to navigate turbulent times to turn your project's dire straits situation around, and lightning fast? This course teaches Project Executives how to leverage Executive Project Management and Control skills to create and capitalize on emerging opportunities to turn around situations that are no longer working.

What You'll Learn- Topics covered include:

- Identifying causes and sources of Problem drivers on projects and programs; and developing proven strategies to resolve them. Setting attainable Goals (short term) for your quick Project Turnaround
- Deploying and putting together the "Right Turnaround Team (RTT)"
- Applying Project Turnaround Earned Value Management Systems, Risk Control & Quality Control checks
- Project Turnaround Planning & Scheduling
- Project Turnaround Cost Estimation, Performance Measurement Baseline
- Project Turnaround Budgeting
- Establishing Project Turnaround communications
- Establishing Project Turnaround crisis control
- Managing Program Risks and Developing "My Project and Program Turnaround Strategies"
- CASE STUDY

INDUSTRY GUIDES AND STANDARDS LEVERAGED ACROSS THE EXECPM PROGRAM:

ISO 31000 Risk Management Industry Standards; ISO 9001: 2015 Quality Management Industry Standards; EIA 748-D Earned Value Management Industry Standards
